

April 1, 2026

Notice to all Rose Lake residents and surrounding area:

Construction to the Rose Lake Dam site is scheduled to occur between August and October 2026. The dam works to be performed are necessary to help manage lake levels and downstream flooding.

Lake levels are required to be lowered by approximately 24” for these works to be completed safely. This lowering will happen slowly, starting from April 2026. Work is planned to be completed by the end of Oct 2026. “
