

MINING COMMUNITY MEETING

Join us for an evening all about mining in Xatsúll traditional territory. We will be covering the ongoing LNRD engagements with the Major Mines such as Gibraltar and Mount Polley including permitting and on-the-ground inspections. We'll also have an update on the appeal for our ongoing litigation against the Province and Mount Polley. Lastly, we'll talk regional mines - placer and mineral exploration including an update on the "no-go zone" we sent a survey out for back in December.
